WHAT IS ESCROW?

An escrow is a deposit of funds, a deed or other instrument by one party for the delivery to another party upon completion of a specific condition or event. It is an independent neutral account by which the interests of all parties to the transaction are protected.

When opening an escrow, the buyer and seller of a piece of property establish terms and conditions for the transfer of ownership of that property. These terms and conditions are given to a third, impartial party known as the escrow holder. The escrow holder has the responsibility of seeing that the terms are carried out.

The escrow is a "storehouse" for all monies, instructions and documents necessary for the sale of your home. This includes the buyer providing funds for a down payment, and the seller depositing the deed and any other necessary papers.

Why Do I Need an Escrow?

An escrow will provide you with a guarantee

that no funds or property will change hands until ALL of the terms and conditions have been followed. The escrow holder has the responsibility to watch over the funds and/or documents and then pay out the funds and/or transfer the title only when all requirements of the escrow have been completed.

How Does the Escrow Process Work?

The buyer, seller, lender and/or borrower cause escrow instructions to be created, signed and delivered to the escrow officer. The escrow officer will then process the escrow, in accordance with the escrow instructions. When all conditions required in the escrow are met, the escrow is "closed".

Prior to close of escrow, the buyer deposits the funds required with the escrow holder. The buyer instructs the escrow holder to release the money to the seller when:

- › The deed records
- › A policy of title insurance will be prepared and delivered to the buyer

The escrow holder acts for both parties and protects the interests of each within the power of the escrow instructions. Escrow cannot be completed until the instructions have been fully satisfied and all parties have signed escrow documents. The escrow holder takes instructions based on the terms of the purchase agreement and the lender's requirements.

The duties of the escrow holder include:

- Managing the funds and/or documents in accordance with instructions
- Paying all bills as authorized
- Responding to requests from the principals
- Closing the escrow only when all terms and conditions have been met
- Distributing the funds accordingly

How Do I Open an Escrow?

Generally, the buyer or seller's real estate agent will open the escrow. As soon as you complete the purchase agreement, the agent will place the buyer's initial deposit, if any, into the escrow account at a title company or into the real estate broker's account.

What Do I Need to Do Before My Appointment to Sign Escrow Papers?

All parties signing the documents must bring proper identification. Bring either a valid driver's license, state identification card or current passport with you to the title company. This item is needed to verify your

identity by a notary public. This is a routine, but necessary step for your protection.

What's the Next Step After I've Signed the Closing Escrow Papers?

After both parties have signed all the necessary instructions and documents, the escrow officer will return the buyer's loan documents to the lender for final review. After the review is completed, the lender is ready to fund the buyer's loan and informs the escrow officer.

How Long is an Escrow?

The length is determined by the terms of the purchase agreement and can range from a few days to several months.

What is an "Escrow Closing"?

An escrow closing is the climax of the transaction. It signifies legal transfer of title from the seller to the buyer. Generally, the Grant Deed is recorded within one working day of the escrow holder's receipt of loan funds. This completes the transaction and signifies the "close of escrow." Once all the conditions of the escrow have been satisfied, the escrow officer informs you or your agent of the date escrow will close and takes care of the technical and financial details. The final closing papers are disbursed upon close of escrow, when the escrow officer verifies with the County Records Office that the documents have recorded and legal transfer has occurred.

TITLE INSURANCE

WHY DO I NEED TITLE INSURANCE?

Many homeowners assume that when they purchase a piece of property that possession of a deed to the property is all they need to prove ownership, but title insurance serves as basic risk elimination. A Preliminary Report outlines the conditions under which a title will be insured. Once the new deed and loan documents are recorded, a title insurance policy is issued to the new owner and lender. This protects both parties against loss due to title defects. Any undisclosed claim (covered by the owner's policy of title insurance) that threatens ownership of the home will be dealt with or will be reimbursed exactly as the policy of title insurance provides.

WHAT PROTECTION IS OBTAINED WITH A TITLE POLICY?

Title insurance offers protection against claims resulting from various defects (as set out in the policy) which may exist in the title to a specific parcel of real property, effective on the issue date of the policy. For example, a person might claim to have a deed or lease giving them ownership or the right to possess your property. Or perhaps a person claims to hold an easement giving them a right of access across your land, or claims to have a lien on your property securing repayment of a debt. A title insurance policy contains provisions for the payment of the legal fees in defense of a claim against the property covered under the policy. It also contains provisions for indemnification against losses which result from a covered claim.

WHAT DOES A TITLE COMPANY DO?

Simply put, whenever someone decides to buy or refinance property, title companies have the ability to check public records regarding the history of that property. Looking for unclear liens, claims or easements is part of what we do. Sometimes distant relatives may have a claim on the property without the seller's knowledge. People have even fraudulently sold houses that do not belong to them. A title company performs a vital, yet hidden role in guaranteeing the security of your home. Just like car insurance, you never realize how important it is until the unexpected happens. This is why lenders require title insurance — to protect the lender against loss due to unknown title defects.

Many title companies also offer escrow services. When buying, selling or refinancing real estate, a neutral third party is needed to handle all deposits of funds, documents, special reports and other important papers. It is also the Escrow Officer you will meet with to sign all the documents prior to your property closing escrow.

WHAT PROTECTION WILL I RECEIVE FROM MY TITLE POLICY?

A Title Insurance Policy pays for legal fees in defense of a claim against property covered under your policy. It also contains provisions for indemnification against losses that result from a claim. The title insurance premium is paid at the close of escrow and no additional premiums are paid as long as you own the property.

IDAHO'S GOOD FUNDS LAW

Idaho's "Good Funds Law" enacts the requirements that checks are deposited prior to disbursement. In addition, the actual day title companies disburse funds is governed by the type of funds received by escrow and that are deposited into the trust accounts.

All escrow and title companies are required to follow the disbursement schedule of the "Good Funds Law" and the guidelines set forth by said laws and their underwriters as follows:

1. Disburse-funds the same day as deposited, if escrow received:
 - **Wired funds** (receipt of wire is verified with receiving bank).
2. Disburse-funds the following day after check is deposited into the trust account, if escrow received:
 - **Cashier's checks;**
 - **Certified checks and Teller's checks.** (Escrow may request the bank's phone number to verify the issuance of the check.)

Note: Official checks are not cashier's checks. Official checks are reviewed for which bank the check is drawn on and at what time period. The minimum hold time for an official check is 2 days; it could be longer depending on the bank the check is drawn on.
3. Disburse-funds 5-8 days after the date of deposit if escrow received:
 - A **personal check** from any source. The variable in days is based on clearance of the check and bank location.

NOTE: Customers depositing multiple cashier's checks, bank drafts, traveler checks and money orders to close an escrow in which the aggregate total is greater than \$10,000 may be required to sign and complete an IRS Form 8300, acknowledging possible IRS cash reporting.

THIEVES LOVE WIRE TRANSFERS. HERE ARE A FEW TIPS ON COMBATING WIRE FRAUD.

1. **CALL, DON'T EMAIL.** Obtain your Escrow Officer's phone number at the **BEGINNING** of the transaction. Confirm your wiring instructions by phone before transferring funds. **DO NOT EVER WIRE FUNDS PRIOR TO CALLING YOUR ESCROW OFFICER TO CONFIRM WIRE TRANSACTION.**
2. **CONFIRM EVERYTHING.** Ask your bank to confirm the name, bank routing number, account number and other codes prior to sending a wire.
3. **VERIFY IMMEDIATELY.** Within four to eight hours, call the title company to confirm they received your money.

HELPFUL REMINDERS & SOURCES OF ASSISTANCE

PAYING OFF YOUR EXISTING LOANS

Unless the buyers assume an existing loan on the property, all loans must be paid off at the close of escrow. The seller must furnish complete debt information to the Escrow Officer and real estate agent. The seller must be prepared to provide the name, the loan number, and address and phone number of each lender. The Escrow Officer will need this information to order a loan payoff demand and subsequently pay off the loan or other encumbrances.

Homeowner's Association information may also be required if you are selling a condominium, townhouse or property located in a planned unit development. All of this information will help assure a timely closing of the escrow.

TRANSFERRING ESCROW FUNDS

If you wish to transfer or wire transfer funds to another escrow, bank or investment account, arrangements must be made in advance with your Escrow Officer.

POWER OF ATTORNEY

In the event that you wish to use a Power of Attorney, arrangements must be made one to two weeks in advance with the Escrow Officer. If North Idaho Title does not draft the Power of Attorney, our legal staff must approve it. These arrangements should be made as early as possible.

IDENTIFICATION

Please bring appropriate identification with you to North Idaho Title so the Notary Public can verify your identity. There are several acceptable forms of identification that may be used. These include:

- A current driver's license
- Passport
- State of Idaho Department of Motor Vehicles ID Card

TAX DEFERRED §1031 EXCHANGE

If the property you are selling is an investment property and the proceeds from the sale are going to be used to purchase other "Like-Kind" investment real estate, you should consider a tax-deferred exchange. Exchanging is an Internal Revenue Service (IRS) recognized approach to the deferral of capital gains taxes. The IRS recognizes the use of an Accommodator or Qualified Intermediary throughout your transaction as a Safe Harbor.

To accurately approach an exchange, become familiar with the rules and regulations underlying such a tax-deferred or tax free transaction. We suggest you see your tax lawyer or tax professional.

GLOSSARY

These definitions are to acquaint the homebuyer with terms commonly used in real estate transactions. The terms are intended to be general and brief and are not complete and wholly accurate when applied to all possible uses of the term. Please consult your real estate agent for more information or questions regarding specific terms.

Adjustable Rate Mortgage (ARM) A mortgage instrument with an interest rate that is periodically adjusted to follow a pre-selected published index. The interest rate is adjusted at certain intervals during the loan period.

Adjustment Period The length of time between interest rate changes on an ARM. For example, in the case of an ARM loan with a one-year adjustment period, the interest rate may change once each year.

Agency Any relationship in which one party (agent) acts for or represents another (principal) under the authority of the principal. Agency involving real property should be in writing, such as listing, trust, powers of attorney, etc.

American Land Title Association (ALTA) A national association of title insurance companies, abstractors, and agents. The association adopts standard policy forms.

Amortization Repayment of a mortgage debt with periodic payments of both principal and interest, calculated to retire the obligation at the end of a fixed period of time.

Annual Percentage Rate (APR) A term defined in section 106 of the Federal Truth in Lending Act (15 USC 1606), which expresses on an annualized basis the charges imposed on the borrower to obtain a loan (defined in the Act as “finance charges”), including interest, discounts and other costs.

Appraisal An opinion or estimate of value. Also refers to the process by which a value estimate is obtained.

Assignment The transfer of ownership, rights, or interests in property, as in a mortgage, lease, or deed of trust. Mortgages and other security instruments are regularly assigned from one investor to another and commitments by HUD/FHA to insure mortgages may be assigned by one originating lender to another before insurance.

Beneficiary The person who is entitled to receive funds or property under the terms and provisions of a will, trust, insurance policy or security instrument. In the case of a mortgage loan, the beneficiary is the lender.

Broker or Agent One who is licensed by the state to carry on the business of dealing in real estate. A broker/agent is employed on a fee or commission basis to bring together buyers and sellers, landlord and tenant, or parties to an exchange, and assist in negotiating contracts between them.

Cap The limit on how much an interest rate or monthly payment can change, either at each adjustment or over the life of the mortgage.

Certificate of Reasonable Value (CRV) A document that establishes the maximum value and loan amount for a VA guaranteed loan.

Closing Costs The costs incurred to purchase real estate. These may include loan fees, title fees, appraisal fees, etc.

Closing Statement The financial disclosure statement that accounts for all of the funds received and expected at the closing, including deposits for taxes, hazard insurance, and mortgage insurance.

Commission An agent’s compensation for negotiating a real estate or loan transaction, often expressed as a percentage of the selling price.

Contingency Clause A provision in some ARMs to a fixed rate loan, usually after the first adjustment period. The new fixed rate is generally set at the prevailing interest rate for fixed rate mortgages. This conversion feature may cost extra.

Deed The document by which title to real property is transferred or conveyed from one party to another.

Deed of Trust Type of security instrument in which the borrower conveys title to real property to a third party (trustee) to be held in trust as security for the lender, with the provision that the trustee shall reconvey the title upon the payment of the debt, and, conversely, will sell the land and pay the debt in the event of a default by the borrower.

Deposit A sum of money given to (1) bind a sale of real estate, or (2) assure payment or an advance of funds in the processing of a loan. Also called Earnest Money.

Discount Points A negotiable fee paid to the lender to secure financing for the buyer. Discount points are up front interest charges to reduce the interest rate on the loan over the life, or a portion, of the loan’s term. One discount point equals one percent of the loan amount.

Due on Sale Clause An acceleration clause that requires full payment of a mortgage or deed of trust when the secured property changes ownership.

Earnest Money A deposit made to bind the conditions of a sale of real estate.

GLOSSARY

Easement A limited right of interest in land of another that entitles the holder of the right to some use, privilege or benefit over the land.

Foreclosure The legal process by which property is sold to satisfy an unpaid debt in the event of default on terms or payments of a mortgage.

Good Faith Estimate (GFE) A document that tells borrowers the approximate costs they will pay at or before settlement, based on common practice in the locality. Under requirements of the Real Estate Settlement Procedures Act (RESPA), the mortgage banker or mortgage broker, if any, must deliver or mail the GFE to the applicant within three business days after the application is received.

Graduated Payment Mortgage A residential mortgage with monthly payments that start at a low level and increase at a predetermined rate.

Grant Deed One of many types of deeds used to transfer real property.

Hazard Insurance Real estate insurance protecting against loss caused by fire, some natural causes, vandalism, etc., depending upon the terms of the policy.

Homeowner's Association (1) An association of people who own homes in a given area, formed for the purpose of improving or maintaining the quality of the area. (2) An association formed by the builder of condominiums or planned developments and required by statute in some states.

Impound Account An account held by a lender for the payment of taxes, insurance or other periodic debts against real property.

Index A measure of interest rate changes used to determine changes in an ARM's interest rate over the term of the loan.

Loan to Value Ratio The relationship between the amount of the appraised value of the property and the loan, expressed as a percentage of the appraised value.

Lock-in A guarantee by the lender of a particular loan rate. The loan must fund before the lock expiration in order to receive the guaranteed or "locked" rate.

Margin The number of percentage points the lender adds to the index rate to calculate the ARM's interest rate at each adjustment.

Market Value An appraisal term denoting the highest price that a buyer, willing but not compelled to buy, would pay, and the lowest a seller, willing but not compelled to sell, would accept.

Mortgage Payment A payment that is owed to the bank/lender each month toward repayment of the loan. The amount is determined by the terms of the loan: principal, interest rate, length of the loan, and periodic adjustments, if applicable.

Multiple Listing Service An exclusive listing, submitted to all members of an association, so that each may have the opportunity to sell the property.

Negative Amortization Occurs when monthly payments fail to cover the interest cost. The interest that isn't covered is added to the unpaid principal balance, which means that even after several payments you may owe more than you did at the beginning of the loan. Negative amortization can occur when an ARM has a payment cap that results in monthly payments that aren't high enough to cover the interest.
